

- ▶ Fortified with the Pebble Edge Admixture
- ▶ Luxuriously Smooth and Resilient Texture
- ▶ Colorful Glass Accents available in some colors
- ▶ Lowest Lifecycle Cost Finish
- ▶ Never have to re-plaster, restore by re-polishing
- ▶ Applied by a Wet Edge Certified Installer

Products are grouped by the water color hue they cast in **most cases**. Products are displayed in the order of their intensity level within each hue. For more information on water colors download our free eBook **Water Color Hue Guide** at [www.wetedge.com/watercolor](http://www.wetedge.com/watercolor)

The illustrated water color examples were created to show a range of possible colors. The water color will vary due to a variety of influences.

### Blue Hue

Ivory Mist    Crystal Coast    Sky Blue    Caribbean Coast

Blue Pacific Coast    Azure Treasure    Tahoe Coast

### Aqua Green Hue

Evergreen

### Black Bottom Hue

The watercolor hue cast by Black Bottom pools can be either blue or green. Because of the intense color they are highly influenced by the surroundings and sunlight.

Midnight Breeze    Black Kona    Black Diamond Treasure

You can expect the color of the water to vary depending on a variety of influences such as the position of the sun, whether the day is sunny or overcast, the pool design, the landscaping around the pool and the pool depth. Water color is considered to be subjective and your watercolor will be unique to your pool and its surroundings. Product samples may vary from printed samples. Finish color and consistency may differ due to variations in natural materials, plastering techniques and pool water chemistry. Ask your contractor for a product sample. It is recommended that you view several pools when making a choice on a WetEdge pool finish. Some WetEdge Pool Finishes contain shell blend or moon dust which are crushed abalone and mother of pearl shells. Because of the unique composition of these shells they are not guaranteed from long-term breakdown of loss of color due to pool water chemistry.
